

Little Jesus

Words and music by Gillian Britton

It was in a little town called Bethlehem
All the stars were shining in a starry Heaven
When a little baby boy to the earth came down
And he lit a star above the tiny town
People must have wondered at that awesome sight
People must have stared at that Holy light
Singing...

Little baby, little Jesus
How'd you make the star shine so bright?
Little baby, little Jesus
How'd you make the star shine so bright tonight?

The shepherds on the hillside, well they saw it too
And they knew exactly what they should do
So they scrambled down the hillside and they went to town
And they found the stable where the star shone down
They knelt before the baby in the manger there
Knelt before the baby and they started a prayer
Singing...

Little baby, little Jesus
How'd you make the star shine so bright?
Little baby, little Jesus
How'd you make the star shine so bright tonight?

Little baby, little Jesus
How'd you make the star shine so bright?
Little baby, little Jesus
How'd you make the star shine so bright tonight?

Little baby, little Jesus
How'd you make the star shine so bright tonight?
