

Round and Round

(two 3-part rounds)

Seasons Go Round

Words & music by Glyn Lehmann

Summer, Autumn, Winter, Spring
Round and round and round again

Seasons come and seasons go
Bring the sunshine, rain and snow

Tell the trees to change their leaves
When to sleep and when to grow

Planets Go Round

Words & music by Glyn Lehmann

Round and round the planets spin
Tied to the sun by invisible string

Gravity holds them in their place
Or they would fly off into outer space (space, space)

Mercury, Venus, Earth and Mars
Jupiter, Saturn, Uranus and Neptune
